

**CARRERA**

**CHRONOGRAPH &  
CHRONOGRAPH TOURBILLON**

Named after the legendary Carrera Panamericana race, Jack Heuer's vision for the Heuer Carrera was to create a timepiece synonymous with precision, pushing boundaries for both design and function. Building on the innovative structure language that has defined the Glassbox series since the 60th anniversary, the new models expand the collection's color palette. The TAG Heuer Carrera Chronograph and TAG Heuer Carrera Chronograph Tourbillon give collectors a fresh perspective on the depth of the Glassbox design, with an extraordinary interplay of color and light.

After the success of the 2022 TAG Heuer Monaco Chronograph in purple, TAG Heuer incorporates this striking color scheme into the TAG Heuer Carrera Glassbox series. The dials of the new models are made with a smooth gradient effect, transitioning from deep black at the edges to a rich purple at the center. This smoky sunray-brushed finish increases the dimensionality of the design, playing with light and depth from every angle.

# KEY FEATURES

---

## DESIGN

---

The chronograph counters show a full black azuré finish, highlighted by silver accents for clarity and contrast, ensuring optimal legibility while enriching the overall visual appeal. The iconic domed sapphire crystal of the Glassbox further amplifies the dial's curved structure, making this watch a bold statement on the wrist.

## DIAL

---

The dial of the both models features a sunray-brushed finish that complements the dial, creating a dynamic contrast between the black outer ring and the purple center. Rhodium-plated hour markers, along with silver accents, bring a refined but understated elegance to the timepiece.

## MOVEMENT

---

Inside the TAG Heuer Carrera Chronograph is the in-house Heuer 02 (TH20-00) movement, celebrated for its reliability and performance, visible through the open caseback. This caliber delivers an 80-hour power reserve and is housed in a 39mm stainless steel case with alternating polished and brushed finishes for added texture.

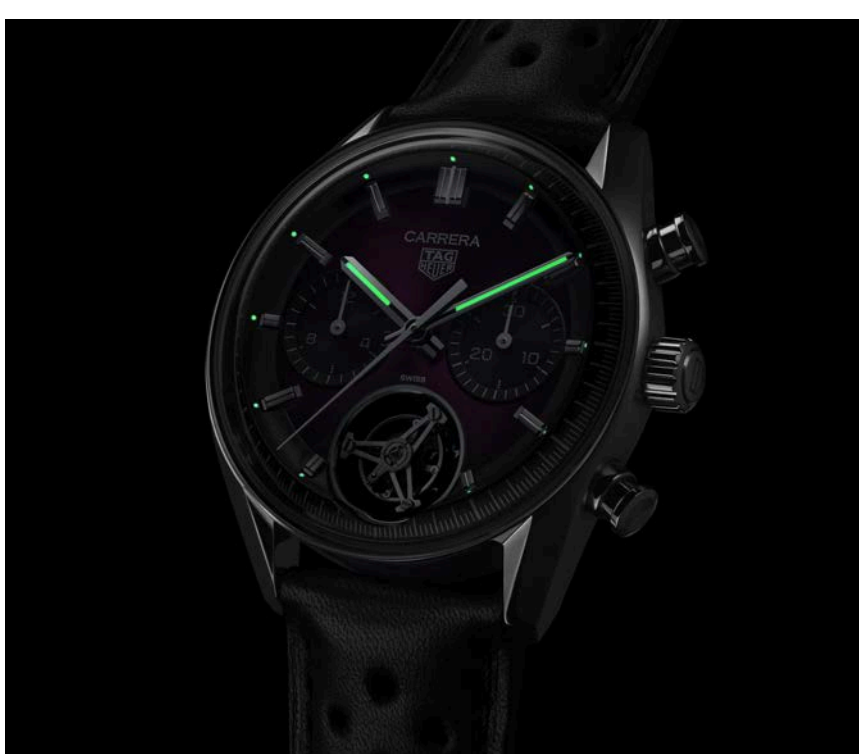

The TAG Heuer Carrera Chronograph Tourbillon showcases the brand's horological expertise. This timepiece is powered by TAG Heuer's in-house Heuer 02 (TH20-09) tourbillon movement, offering a 65-hour power reserve.

## BRACELET

---

Both models are fitted with black perforated leather straps, complemented by black stitching on the front and a purple calfskin lining on the reverse with tone-on-tone stitching.

## SUPER-LUMINOVA®

---

The TAG Heuer Carrera Chronograph features rhodium-plated, faceted, polished hour and minute hands, enhanced with white Super-LumiNova®.
