

GETTING STARTED

with your TAG Heuer Connected watch

COMPATIBLE WITH ANDROID AND IPHONE SMARTPHONES*

To use your TAG Heuer Connected watch you need a phone running at least Android 6.0+ or iOS 10.0+ and to download *Wear OS by Google* app on your phone.

PAIRING

Turn on your watch and place it on the charger. Activate Bluetooth and open the *Wear OS by Google* app on your phone. Let yourself be guided through the pairing process and then enjoy all the features of the TAG Heuer Connected watch. A tutorial video is available in our FAQs www.faq.tagheuer.com.

** Features offered may vary according to phones and countries.*

TAG HEUER CONNECTED APP

On your Phone, download the new *TAG Heuer Connected* app, from the App store or the Google Play Store, to get the most functionality out of your watch.

STAY UP TO DATE

To get automatic updates:

- Connect your watch to the Wi-Fi.
On your watch: Settings > Connectivity > Wi-Fi
- Create and/or synchronise your Google account.
On your phone: Wear OS by Google app > Advanced Settings > Account
- Place your watch on its charger at night so it can automatically download updates.

MEASURE YOUR HEART RATE

For optimal performance of the heart rate sensor, your watch strap must be snugly fitted to the wrist and above the wrist bone.

TRACK YOUR ACTIVITIES WITH TAG HEUER SPORTS APP

- On the watch, press the top button to launch the TAG Heuer Sports app then select your activity.
- After your session, open and login to the *TAG Heuer Connected* app on your phone to see the details of your session.
- You can also synchronise your sports sessions with Apple Health, Google Fit or Strava.

CUSTOMISE YOUR WATCH

A variety of watchfaces are offered to let you express your creativity both in design and colour. Long press on the watchface to select a design, press the settings icon below the watchface to customise.

You can also preview your watchface along with different straps in the *TAG Heuer Connected* app on your phone. Tailor your newly designed watch faces with different straps to suit your style of the day!

NOTIFICATIONS

Swipe up on the watchface to keep an eye on your notifications. Receive push notifications from your phone throughout the day. For iOS users, *Wear OS by Google* app needs to remain open on the phone background to receive notifications.

GOOGLE PLAY STORE

Download and enjoy thousands of apps, from Google Play Store directly on your watch.
